

health & safety management

newmac provides health and safety advice and management systems across a variety of industries. We carry out audits and reviews of existing organisational procedures to help clients benchmark their operations.

We fulfill the role of health and safety advisors as required by Regulation 7 of the Management of Health and Safety at Work Regulations 1999 and seek to provide a comprehensive support service to clients.

Our aim is to work with clients to help meet their legal obligations and go beyond this to implement effective health and safety management.

- Risk management
- Accident investigation
- Client representation with statutory bodies and other third parties
- Updating and review of current legislation
